WATER TREATMENT

# FILTERS FOR ACTIVATED CARBON AND SAND

## WATER TREATMENT

# FILTERS FOR ACTIVATED CARBON AND SAND

### DESIGN AND CONSTRUCTION OF FILTERS FOR WATER TREATMENT

#### SPECIFICATIONS:

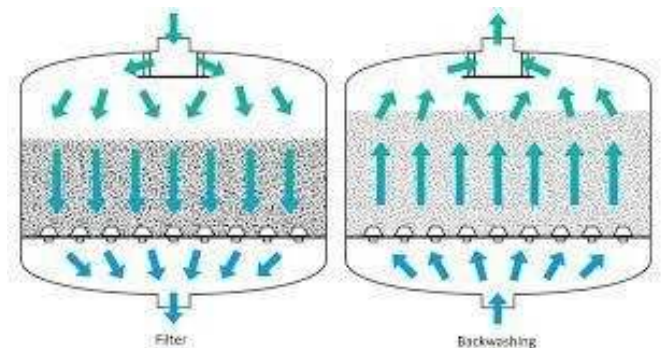

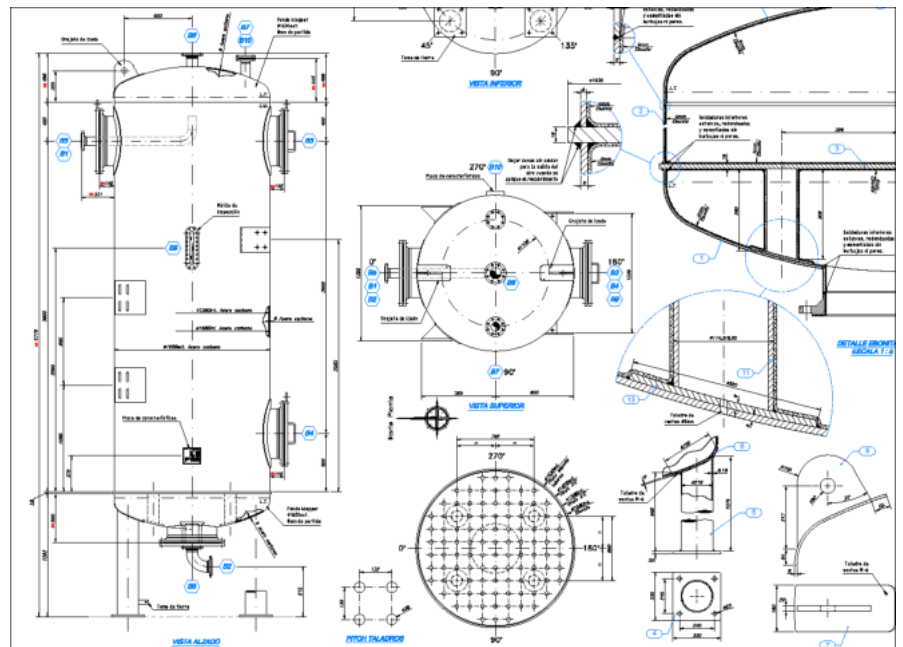

- Design code: EN 13445 or ASME VIII.
- Material:
- Carbon steel.
- Carbon steel + hard rubber lining.
- Stainless steel AISI-316 L, AISI-304 L.
- Thickness: until 20 mm.
- Diameter: 3.000 mm maximum.
- Filters nozzles for water processing or water cleaning:
- Carbon activated for filtration.
- Sand for filtration

- Carbon activated for filtration.

- Sand for filtration.
